A Diagraph Marker For Every Task

No matter what line of work you're in, there's a Diagraph marker that's up to the task. While all of our ink and paint markers can be effectively used in most industry applications, our markers differ in their ink fill amounts and in the length of time the mark stays on a product. Take a closer look at the specific characteristics of each of our proven marker categories to determine which one is best for the unique needs of your business.
paint markers

GP-X: Classic, Grizzly, Spike & 2018P

Our GP-X Classic, Grizzly and 2018P effectively mark on almost any surface. These markers are Xylene-based; a drying agent that penetrates oily surfaces when other drying agents won't.

Effectively marking on any surface up to 150° F, the GP-X Spike is best for metal, wood, and rubber applications.

1. Oily Metal 2. Rusty Metal 3. Wood 4. Rubber
eco markers

GP-X Eco & GP-X Anchor

For Performance. For the Environment.

A newer, environmentally friendly marker line designed for companies requiring non-Xylene based markers. The GP-X Anchor is water-based, and the GP-X Eco features a fast dry time, but both are non-hazardous for the user and the environment.
1. Stainless 2. PVC 3. Galvanized 4. Wood
ink markers

Ideal Mark & Jumbo Insta-Marker

A hard-working line of xylene-based permanent ink markers that effectively penetrate oily surfaces and work well in industrial applications.

1. Metal 2. Wood 3. Cardboard

GP-X classic
VALVE ACTION | all purpose paint marker

Stands The Test Of Time

A permanent fixture as the industry's favorite marker, the GP-X Classic makes weather and fade-resistant marks on: porous and non-porous surfaces, metal, wood, corrugated, rubber, plastic, glass and more. Available in 13 colors.

stenciling.

Quality makes the cut.

Whether you're marking products for shipment, identifying plant areas, or creating directional and safety signs, Diagraph stenciling products are the quick and cost-effective way to make a positive impression in the workplace. Our legendary stencil machines have set the standard since 1893 and we continue to use leading-edge technology and systems. You'll find our stencil products in oil fields, shipyards, steel mills, aerospace environments, warehouses, shipping departments, military and municipal buildings, and anywhere else that demands excellent marking results on difficult surfaces.

stencil machines
Manual Stencil Machine, SC-5 Electronic Stencil Machine

As the industry standard ever since we invented the technology, our manual stencil machines offer versatile, proven results in a rugged, industrial-strength package.

Diagraph's proud history of stencil machines continues with the SC-5 – the most advanced system available. Effortlessly cut a wide range of characters sizes, plus leverage knife-saving technology, an extra-wide 29" bed, an easy to use keypad – all for less than the price of a large character manual stencil machine.

cutting media
Stencil Board, Ultra-Cut, Poly-NT, Poly-Extra...

Our leading-edge materials, stencil boards and ink applicators provide you with the necessary accessories you need to succeed. Take a closer look at these resources for your electronic and manual cutting machines.

applicators
OneShot, HV, Rol-It-On...

With a full lineup of proven yet economical performers, there's a Diagraph applicator solution for virtually every job and surface, including porous and non-porous surfaces, plastics, vinyl, glass, and even metal. Best of all, these applicators are as simple to use as they are effective and are available in a wide variety of styles and inks.

SC-5 Electronic Stencil Machine

"Cutting" Edge Technology

Diagraph's proud history of stencil machines continues with the SC-5 – the most advanced system available. Effortlessly cut many character sizes, plus leverage knife-saving technology, an extra-wide 29" bed, an easy to use keypad and screen – all for less than the price of a large character manual stencil machine.

Electronic Stencil Machine Cutting Media

Stencil Board

The SC-5 Electronic Stencil Machine has the ability to cut traditional 10-point brown rolled, 20"x100' board.

Ultra-Cut

The original and still the best, Ultra-Cut is a 2-ply poly-ethylene material with an adhesive backing, making it an ideal substitute for stencil board on concave or convex surfaces. Easy material for cutting. Tough enough to last.

Poly-NT

Designed for multiple applications, Poly-NT is similar to Mylar® and can be stored and reused many times.

Poly-Extra

All the benefits of the Poly-NT but with extra width for larger stencils, plus a light, temporary, non-slip adhesive to make stenciling fast and easy.

Transfer Tape

For use with vinyl material, Transfer Tape helps transfer the cut sign or stencil from the backing material to the surface.

Vinyl

Available in black & white, our vinyl material is the number one choice for creating signage.

Ink Conditioner

For Stencil Rollers and Pads
Extends stencil roller and ink pad life by preventing them from drying out. Adds ink mileage by maintaining the proper ink consistency. Use with all stencil rollers and pads.

stock #	color	quantity
CONDITIONER FOR STENCIL INKS		
0502008	conditioner	1 Quart (.9475 L)
0504008	conditioner	1 Gallon (3.79 L)

Oneshot® Roller Assemblies

The Oneshot roller twists onto a specially designed ink cartridge–creating an easy-to-use stenciling tool. The ink saturation is controlled by a valve in the assembly. The roller assembly features a durable neoprene roller. There's no messy refill, simply attach a new cartridge when you run out of ink.

Multi-Purpose

These all-around performers offer good adhesion and excellent results on both light and dark surfaces. For use with Rol-It-On® and HV applicators, these inks dry fast on porous and non-porous surfaces. With no hazardous air pollutants, they are CONEG/RoHS compliant, SARA compliant, contain low VOCs and feature No Prop 65 reportable chemicals.

GS Series Ink

Make a strong impression with this ink specifically designed for use with HV and Rol-It-On® with Type N roller.

R Series Ink

The perfect match for HV and Rol-It-On® with Type N rollers. This CONEG/RoHS Compliant series of ink dries instantly on most porous surfaces to a permanent matte finish and is oil, water and fade-resistant when dry.

No Cracking These Coders

Essential to outstanding warehouse performance and productivity, Diagraph coders are the easy and economical way to mark cartons and containers. From automated to hand coders, you'll find everything you need to make lasting impressions. Plus, we offer a complete line of inks, cartridges, rubber type, and replacement parts for versatile applications to always keep you running strong. When you're ready to make positive marks in the workplace, look to the industry leader for coder products and accessories that are second to none.
SL/C Coder Kits

Depend on the quick-change artist that does it all. Mark the side, top or bottom of cartons – as low as 1 1/4" (31.75 mm) from the bottom edge – with this Slim Line Roller Coder. Quick-change capability eliminates the need for another coder – just purchase an extra die wheel for different type options. Three models offer a range of convenient print areas.

stock #	description	print area
*SL/C WITH QUICK CHANGE CAPABILITY		
1780115	#1 SL/C, LeftHand Kit	1" x 17"
1780116	#1 SL/C, RightHand Kit	1" x 17"
1780215	#2 SL/C, LeftHand Kit	2" x 17"
1780216	#2 SL/C, RightHand Kit	2" x 17"
1780315	#3 SL/C, LeftHand Kit	3" X 17"
1780316	#3 SL/C, RightHand Kit	3" X 17"

*The SL/C Coder Kits include DiLok type rings, friction bearers and XLM Cartridge

Right-Hand Model

Mini Coder

A big idea for small or lightweight coding applications, this coder is a budget-friendly option with a maximum print area of 1" x 6" (25.4 mm x 152.4 mm). Prints as low as ¾" from the bottom of the carton and uses DiLok type.

stock #	description	print area
MINI CODER		
1741200	Mini Coder	1" x 6"
1741805	Side Mount Bracket	n/a

1741100	XLM Uninked	4
1741101	XLM Black	4
1741120	Mini Foam Uninked	1

Handi-Mark II Hand Coder

When automatic coding is not possible, roll up your sleeves and do it by hand. These printers quickly and easily apply data codes, lot numbers, and other key product information. Choose from indexing or non-indexing (continuous print) models.

1785854	DiDark HMII Black	1
1785213	Foam HMII Uninked	1

XLM® Cartridges

stock #	description	quantity
XLM CARTRIDGES		
1719100	#1 Uninked*	3
1719101	#1 Black	3
1719200	#2 Uninked*	2
1719201	#2 Black	2
1719300	#3 Uninked*	1
1719301	#3 Black	1

The premium cartridge–extra long-lasting and re-inkable. Most effective on porous surfaces. Available uninked or pre-inked.

*Caution: Use only XLM ink, 1201FD, 1205FD, or 1303 with XLM Cartridges

MicroX Cartridges

stock #	color	quantity
MICRO X CARTRIDGES		
1701401	#1 Black Micro X	3
1702401	#2 Black Micro X	2

Ideal for continuous web applications on porous surfaces. Not re-inkable.

Foam Cartridges

stock #	description	quantity
FOAM INK CARTRIDGES		
1717801	#1 Uninked	1 Cartridge
1717802	#2 Uninked	1 Cartridge
1717803	#3 Uninked	1 Cartridge

Recommended for use with non-porous inks including pigmented. Available uninked only. Contact your Diagraph representative for appropriate foam cartridge applications.

Coder Type Sets

DiLok Type

How it all comes together is what sets this type apart. This rubber type is molded to a tongue-and-groove base which interlocks with the die wheel. Provides excellent message flexibility plus different type sizes can be mixed on the same line.
